

The Kelly Family, Swing all night

When the sun shines on his soul or
When the rain falls on his head or
Will he will on stage again
Should we sing for you again or
Should we dance for you again or
Should we give you all we have
He said swing and dance all night
Come on baby
He said you got more than you can see
All you need is fairer hand
So clap along with us baby
When the must and punky heads
Come and clap your hands together again
Scream aut real loud with us , yeah
We go to swing and dance all night
Come on baby
You can do it I know you can
So take your hands together again
So take your hands and mine baby
Come and swing for us again or
Come and laugh for us again or
Come and freeze once more baby
We go to swing and dance all night
Come on baby
