

The Kelly Family, We Look Back

We Look Back
There's nothing now
Under the sun
To dust you rott from
Dust you come
In your weakness you
Were strong
There's been some changes
Since you've gone
Since you've gone
Since you've gone
Since you've gone
We look back on the things
That you've done
We look back on the things
Said and done
We look back on the days
Without tongue
The stars have been shining
Since you've gone
It's funny how life just goes on
A fruitful season has begun
Fishes swing while birds
They sing
There's been some changes
Since you've gone
Since you've gone
Since you've gone
Since you've gone
We look back on the things
That you've done
We look back on the things
Said and done
We look back on the days
Without tongue
The stars have been shining
Since you've gone
In your daughters and your sons
Little children you live on
There's been some changes
Since you've gone
Since you've gone
Since you've gone
Since you've gone
We look back on the things
That you've done
We look back on the things
Said and done
We look back on the days
Without tongue
The stars have been shining
Since you've gone
Listen daddy to your son
