

# The Killers, We Did It In The Name of Love

Sorry for the tears  
That you believe I may have caused you to cry  
And forget these allegations  
That I categorically deny

I'm not a perfect man  
I'm on the brink of breakin'  
And maybe you can guess  
How many I was takin'  
You be my good luck charm  
I'll be your true love waitin'  
I'm not a perfect man  
You can't stand the way I am

You wanted me to play in the name of love  
But the words I spoke fell into silence  
And maybe when you play in the game of love  
There's a blind eye turning past the violence

We did it in the name of (in the name of)  
We did it in the name of love  
Yeah we did it in the name of (in the name of)  
We did it in the name of love  
You were standin'

Sorry for the tears  
But the blood stained days they never seem to last  
(We did it in the name, in the name of love)  
(Yeah we did it in the name in the name of love)  
And the pictures of our love-thing  
Well they're just a remnant of the past  
(We did it in the name, in the name of love)  
(Yeah we did it in the name in the name of love)

I'm not a perfect man  
I'm on the brink off breakin'  
And maybe you can guess  
How many I was takin'  
You be my good luck charm  
I'll be your true love waitin'  
I'm not a perfect man  
You just can't stand the way I am

You wanted me to play in the name of love  
But the words I spoke fell into silence  
And maybe when you play in the game of love  
There's a blind eye turning past the violence

We did it in the name of (in the name of)  
We did it in the name of love  
Yeah we did it in the name of (in the name of)  
We did it in the name of love

And I can't stand to do it  
But if you want salvation  
You've got to find  
Some other point lost to you

You wanted me to play in the name of love

But the words I spoke fell into silence  
And maybe when you play in the game of love  
There's a blind eye turning past the violence

We did it in the name of (in the name of)  
We did it in the name of love  
Yeah we did it in the name of (in the name of)  
We did it in the name of love
