## The Kills, Doing It To Death

Baby save it, we're wasted I know we got it slowing down But when the waves come your face numb And you know we can't stop it now

Hands up we're in a deadlock
Put your hands up and do your dipsy and dropsy
And line up, we're hanging up
We're double sixing it, night after night
Doing it to death
Doing it to death

Baby lately the plans we're making Are the shape of things that never come Hold your horses, the lights up Can't feel it coming back around

Listen up it's picking up
Put your hands up and do your kicksy and lipsy
Your time is up, we're hanging up
We're double sixing it, night cause tonight
We're doing it to death
Doing it to death

We're double sixing it night after night after night We're double sixing it night after night after night We're double sixing it night after night after night

Doing it to death
