

# The Lemonheads, Down About It

Gotta own up on my own somehow  
Toss the beginning and try to live it down  
'n work my way out  
I been so down about it

It gets the same every time I shy  
Away from the blame and I stand my time  
You can understand why  
I been so down about it

She's gonna give me all the time I need  
to finish it  
and if I can't I'll sleep  
over

And out like a light when it's not plugged in  
fading around if it starts again  
you just don't get it when  
I get so down about it

I drop you a hint so I hope you don't catch  
You fumble your keys and I throw the latch  
You'll still worried that  
I been so down about it

Bridge:  
Out of it so I'd hope she'd be there  
Talk to her as I climb the stairs  
I told her

gotta own up on my own somehow  
gotta own up on my own somehow  
gotta own up on my own somehow
