

# The Lemonheads, Nothing True

It's not me, this disease  
It's not you, that's not true  
It's our fault, me and you  
Most of all, you're not you

I dream of you, it's nothing new  
I dream of you, it's nothing true

It's not you, that's not true  
It's our fault, me and you  
Most of all, you're not you  
You're nothing new  
You're nothing true  
I dream of you, it's nothing you
