

# The Like, (So I'll Sit Here) Waiting

So I'll sit here waiting  
While the worlds will pass me  
You can't have me  
Walk by me  
I can't say a word  
I'm helpless  
Can't help me  
You can't stop me now

Cuz I wanna be bad for you  
You just lead the way  
I'll follow  
I don't wanna think it through  
Never give a thought tomorrow

Lost in thoughts of empty dispositions  
My position stops me  
Can't stand up  
I can't breathe  
You're telling me  
You're not for me  
But I'll just make you see

That I wanna be bad for you  
You just lead the way  
I'll follow  
I don't wanna think it through  
Never give a thought tomorrow

I'll never be like your kind of girl  
Never be right there in that world  
But I'll entertain the notion  
That I could live there too

So I'll sit here waiting  
While the worlds all pass me  
You can't help me  
I won't sleep tonight

Cuz I wanna be bad for you  
You just lead the way  
I'll follow  
I don't wanna think it through  
Never give a thought tomorrow

For you...  
I wanna be bad for you...  
Tomorrow

I wanna be bad for you  
Never give a thought tomorrow
