

# The Magnetic Fields, The Way You Say Good-Night

So far away and so alone  
how could I ever take you home  
You're beautiful, beautiful

You've got a devastating point of view  
and everything you say is true  
You're beautiful, beautiful

The nightbirds start to sing their favorite song:  
"The Way You Say Good-Night"  
The nightbirds start to sing their favorite song  
and the moon begins to sing

I kiss you and the sun goes down  
How come it's always dark when you're around  
You're beautiful, beautiful  
The nightbirds start to sing their favorite song  
The moon begins to sing  
You're beautiful, beautiful

The stars begin their Busby Berkeley dance:  
"The Way You Say Good-Night"

And the night becomes a musical extravaganza:  
"The Way You Say Good-Night"

The way you say good-night  
I dream of all day long  
Oh, I could write a song about the way you say good-night...
