

The Maine, Count 'em one, two, three

You count 'em one, two, three
look so cute when you get that mad
you drain the life from me, and it feels oh so good
The looks you give are so contagious
the way we move is so outrageous
just let me in, wasting time, just let me in
lets make it right
Stay up and get down sleeps just time
its been wasting time
so get down or get down
lets make it happen all night
You're moving close, my pulse is racing
wer'e getting close
yeah i can taste it
i've never done it quite like this
so slow it down now, just slow it down
The looks you give are so contagious
the way we move is so outrageous
just let me in, wasting time, just let me in
Stay up and get down sleeps just time
its been wasting time
so get down or get down
lets make it happen all night
Reach out touch someone
so catch me if you can
reach out touch someone, touch someone, touch me
Reach out touch someone
so catch me if you can
reach out touch someone, touch someone, just touch
Reach out touch someone
so catch me if you can
reach out touch someone, touch someone, touch ahhh
Stay up and get down sleeps just time
its been wasting time. so get down or get down
lets make it happen all night
