

# The Maine, Count 'em one, two, three

You count 'em one, two, three  
look so cute when you get that mad  
you drain the life from me, and it feels oh so good  
The looks you give are so contagious  
the way we move is so outrageous  
just let me in, wasting time, just let me in  
lets make it right  
Stay up and get down sleeps just time  
its been wasting time  
so get down or get down  
lets make it happen all night  
You're moving close, my pulse is racing  
wer'e getting close  
yeah i can taste it  
i've never done it quite like this  
so slow it down now, just slow it down  
The looks you give are so contagious  
the way we move is so outrageous  
just let me in, wasting time, just let me in  
Stay up and get down sleeps just time  
its been wasting time  
so get down or get down  
lets make it happen all night  
Reach out touch someone  
so catch me if you can  
reach out touch someone, touch someone, touch me  
Reach out touch someone  
so catch me if you can  
reach out touch someone, touch someone, just touch  
Reach out touch someone  
so catch me if you can  
reach out touch someone, touch someone, touch ahhh  
Stay up and get down sleeps just time  
its been wasting time. so get down or get down  
lets make it happen all night
