Transcendental mama travels  
Feet barely touch the ground  
Time don't mean a thing  
Except that the world goes around

Meditation woman  
Rather walk than ride  
Never really quite convinced  
She's not supposed to fly

Mojo daddy mystic  
Wants both feet on the ground  
Meditation mama  
Keeps them spinning around  
For her sweet love

Completely, good love for me

Up and down the western coast  
In and out of bounds  
Searching for her eastern ghost  
And his magic fountain

Always just a thought behind  
Never there beside her  
Mojo daddy doesn't mind  
He knows he's inside her

Transcendental mama travels  
Feet barely touch the ground  
You know the world goes around  
For her sweet love

Completely, good love for me
