

The Mamas & The Papas, Nothing's Too Good For

A Thursday night meeting
To talk with your dad
He said that the organization
Makes his heart feel glad
I picked out a movie; we went with your dad
And he said that it's this kind of movie
That'll turn a good kid bad
He should know cause he's a dad
And he knows what's good and what's bad
Yes, I guess you'll never be had
Cause how many times have I heard him say

Nothing's too good for my little girl
Give her the best, I say
It's always first class for my little girl all the way

One night in a night dream
I dreamt of your daddy
He was making up a list
Of all the things he thought I should have
One day in a daydream, I found you alone
But I didn't try to kiss you
Or even make you my own
Cause you belong to dad
You're not on the list of things I should have
And I'm the kid who went bad
How many times have I heard him say

Nothing's too good for my little girl
Give her the best, I say
It's always first class for my little girl all the way
No, nothin's too good for my little girl
Give her the best, I say
It's always first class for my little girl all the way

Nothing's too good for my little girl
