

# The Manhattan Transfer, I Need A Man

Roof over my head, keep out the rain  
Food on the table, I can't complain  
When I had no one, you reached out your hand  
I want what you give me, but I need a man

We'll not go hungry, we'll never be cold  
Long as we have each other to hold  
I do without most things, I get by somehow  
But I need a man, and I need him now

Nobody special, just the usual kind  
Works hard all day and comes home to unwind  
I don't care what he looks like if he's just my own

But I know I'll go crazy one more night, more night, one more night alone

Don't need no lectures on what's right for me  
Wake up each morning, I know what I see  
No one's beside me, can't you understand  
From so deep inside me, I need a man

So deep inside me, I need a man  
(Repeat six times to fade)
