

The Manhattan Transfer, Occapella

There's music in the streets
And music in the air
A little ol' soul beat
Dancin everywhere
I would tell the whole world
I'd tell 'em if I could
To add a little song into each life
And make it finger poppin' good

Whoa, whoa
Oh pardon me but you could use it
We're gonna make a little music
You got soul now don't you lose it
We're gonna make a little music
Everything's gonna be mellow
We would just sing it occapella
Everything's gonna be mellow
Listen while we sing it occapella

Whoa, whoa
(Vocal breakdown)

Repeat from top, fade out at the end
