

The Materia, rain

Say I'm betrayer
They said it's safer
Bless our frustrations
Saying you will save us

It's raining
Floods running down now
My fears are burning
It's burning
My eyes in rain are burning
Betrayer

Beat me down

The fire is in
Burning my sins
And then the rain comes over
And the rain floods over my skin
Fire is in
It's burning my sins
And then the rain comes over
And the rain floods over my skin
