

The Mavericks, Neon Blue

(Kostas, Pete Anderson)

And when the sun goes down
Your memory still hangin' around
Inside this honky tonk
Where I think of you
The flashing lights shine bright
And sparkle in the night
And my heart turns to neon blue

I see your emerald eyes
And your ruby lips on mine
Remembering all the love
That we once knew
Red dress hangs on the door
Black high heels on the floor
And my heart turns a neon blue

What a cold cold sensation
From night into day
Temptation temptation
Has taken you away
I see your emerald eyes
And your ruby lips on mine
And my heart turns a neon blue

What a cold cold sensation
From night into day
Temptation temptation
Has taken you away
And when the sun goes down
Your memory still hangin' around
Leaving my heart a neon blue
Turning my heart a neon blue
