## The Medic Droid, Fer sure

Fer sure maybe fer sure not Fer sure eh fer sure bomb

Pulled up at a stop light did drugs on the dashboard

Look at the mess we made tonight

Kick off your stilettos

Kick off your stilettos

And fuck me in the backseat

Fuck me in the backseat

You're always falling in disguise

And always quick to compromise

Kick off your stilettos [oh yeah]

Kick off your stilettos

And fuck me in the backseat [fa-fa-fa]

Fuck me in the backseat

Fer sure maybe fer sure not

Fer sure eh fer sure bomb

This is the end of what we planned [of what we planned]

And now

We're not falling in love

We're just falling apart

so girl let's dance the night away

This is how the beat goes

This is how the beat goes

Just let your body go

This is how the beat drops

This is how the beat drops

I wanna see your panties drop girl now

All this time is wasted pretending we're in love

But that's alright

cause you know I love being with you and seeing you cry

So don't let go-o-o

Well don't let go, no-o

Don't let go

Fer sure maybe fer sure not

Fer sure eh fer sure bomb
