

# The Mighty Mighty Bosstones, Temporary Trip

I saw a man break down on New Year's Eve  
Drop to his knees and cry hysterically  
Screaming nonsense you would not believe  
On the sidewalk right in front of me

And I asked him Mr. what's the matter  
Calm down are you alright  
Looks like you could use a doctor  
And how much have you had to drink tonight

Remember this is just a temporary trip  
If you stay down too long you can sometimes lose your grip

I helped him get back on his feet again  
And brushed the slush off his overcoat  
He wiped his eyes he shook my hand and then  
Before he walked away he sadly cleared his throat

Then he said son I'm just old and lonely  
But thank you for your concern  
Here's wishing you a Happy New Year  
I wished him one back in return

Remember this is just a temporary trip  
If you stay down too long you can sometimes lose your grip

Then he said son I'm just old and lonely  
But thank you for your concern  
Here's wishing you a Happy New Year  
I wished him one back in return

If you stay down too long you can sometimes lose it
