

# The Mighty Mighty Bosstones, That Bug Bit Me

That bug bit me,  
I'll admit  
Stunned - it took a while to hit  
But when it hit me,  
I was bit  
Shit, I came clean with it

No match, who am I  
No match, who am I, so why try to deny it  
Just a regular guy, who won't even try it

The bug's been around  
Since time began  
It's bitten bigger  
Badder bastards than the one I am  
It can cripple  
And it can paralyze  
When I felt it's tooth  
I told the truth to my surprise

I saw the bug and I gotta say  
Ahh I tried to get away  
I tried to run and  
I tried to fight  
But the bug was there to bite  
No match, who am I?

Must respect the insect, it injects and infects  
If i may interject, I love the effects
