

# The Mighty Mighty Bosstones, The Old School Off

Bring in the skins with the pins and the patches on their flights  
The rovers with the clovers who've spent far too many nights  
Out with us till closing time we hope we're not imposing on you  
Get the crew together- it's the old school off the bright  
Flush the boys out of Dot we're gonna need them there  
And tell the trouble-makers that hang out in Harvard Square  
We need every able asshole every asshole you can spare  
We're going off the bright invite them to this fine affair  
Tell the Irish in Southie and the South End Puerto Ricans  
The North End Italians and the wind bags up on Beacon Hill  
There will be no tomorrow, it's going down tonight  
So get the crew together- it's the old school off the bright  
We want the punks, the drunks the layabouts the steady working joes  
The white collars, the rednecks and our blue blooded bros  
The jocks, the preps, the stoners, the homeless, and homeowners  
Every loser, boozier, drug abuser, sharpie and Two-Toner  
We'll take the jills and bring on the jacks  
From Forrest Hills all the way to Father Mac's  
The rude girls and the rudies, don't fail it's your duty  
Cause tonight will be the night  
So get the crew together  
It's the old school off the bright (x3)  
Get the crew together  
It's the old school off the bright
