

The Mighty Mighty Bosstones, Wrong Thing Right

From the Meet The Deedles Sountrack and Big Rig 12" LP

So here's what happened this time,
I'm sure that it's the last time,
I'm over going over it, it's over once again
What am I gonna do with me,
I blew the opportunity,
by saying something asinine,
I've gotta watch this mouth of mine
I sure said the wrong thing right then, try to forgive
I'll never say that again, as long as I live
As I remember the events,
I'm tryin' hard to make some sense
My mouth is my arch-nemesis,
you'd think that I'd be used to this
Nothing nice to say, sticks and stones,
I blew it now, and I'm all alone,
Let me take it back, I was only joking,
my mouth is shut but my heart is broken
I sure said the wrong thing right then, try to forgive
I'll never say that again, as long as I live
I sure said the wrong thing
Right then I said the wrong thing (3x)
I sure said the wrong thing right then
I was way ahead, and I should have quit
instead I put my foot in it
My mouth I hold responsible,
what I need now's a miracle
So that's what happened this time,
no question it's the last time,
If I get out of this one with my skin,
I'll mind the mouth that got me in
I sure said the wrong thing
Right then I said the wrong thing (2x)
I sure said the wrong thing, right then, try to forgive
I'll never say that again, as long as I live
Spoken: Sure hope that as long as I live
