The Mission, Dance On Glass

Run you ragged Torn and jagged Sharp tongued, ripped and ragged Couldn't find the party line Gee whiz, it's happy time Mirror, mirror, reflects me hazy The heat's on, I'm running round crazy Here's the road, didn't miss a trick While you trash the punch and kick I'll kiss the lips that sealed your fate I'll bring you flowers and place them on your grave

Dreaming of colours, swamped in dust Sweet dreams all covered in rust Looking at heaven, gladdest ghosts seen Turn to kill this crazy dream You are revered for your work with ink and mirrors You are renowned for bringing me steel and power

So dance, dance, dance on Dance, dance, dance, dance on glass Dance, dance, dance on Dance, dance, dance Dance on glass

Shadow boxing, mild and meek Send me flowers, tongue in cheek Medicine man cast a spell Head spins round, kiss and tell

So dance, dance, dance on Dance, dance, dance, dance on glass Dance, dance, dance on Dance, dance, dance Dance on glass

Cheeks on fire, dance on glass A touch of magic, a hint of class Dress in leather, play in the dark Pain and torture leave their mark Take no prisoners, smash the light Lunatic fringe, kiss and bite Wild promise, cheeks are red Battle cry, and then it's off to bed You've taken my heart and ripped it from my sleeve Hold it in your hands Grip your fingers and it starts to bleed

So dance, dance, dance on Dance, dance, dance, dance on glass Dance, dance, dance on Dance, dance, dance, Dance on glass

You shudder at a touch
