

The Mission, Heaven On Earth

Ever

There's oceans between us

Take to the sea, take to the sea
There's heaven before us

Float on the waves, float on the waves

Pale moon lay belief on me,

Mother come give me birth
You give me heaven,

And I'll promise you the earth

Heaven

Lays on your pillow,

Sleep in your eyes, sleep in your eyes

Lays in the waiting

Steal every moment, hold every breath

Gentle heart beat as one,

Dream for the beauty of birth
You give me heaven

And I'll promise you the earth

I'll die for you, if the time ever came,

I'll kill for you and shoulder the blame,
I'd cry for you and never feel shame,

For the child is within
For the child is within you,

Precious
I want the earth for you

Precious

I hold out my hands to touch the sky

And only the pure go to heaven

Suffer the child unto you

Forever more

Heaven on earth

Bless me my goddess of love
For all your blessing is worth

You give me heaven and I promise you the earth

I pray for the second coming

Worship you for the first

You give me heaven and I give you the earth

You give me heaven and I give you the earth

You gave me heaven and I give you the earth
