

# The Mission, Like A Child Again

I'm not scared anymore  
I'm not scared of the dark when I sleep with you  
And I'm feeling alive  
And I'm feeling strong again when I'm with you  
And it hits me  
Just like a runaway train  
And it blows me away  
Just like a hurricane  
You can make me happy and I hope you feel the same  
You make me feel just like a child, a child again

I'm not trapped anymore  
Between madonna and the whore when I lay with you  
And the days run away  
Like wild horses run away when I'm with you

And I'm breathing you in  
Just like the morning air  
And I'm wrapping you around  
Just like a skin to wear

Oh sweet thing  
I'm born once again  
For you sweet thing  
Just like a baby again  
You make me happy and I hope you feel the same  
And I'm in heaven and it feels like a gentle rain  
You make me happy and I want you to feel the same  
You make me feel just like a child  
A child again
