

The Mission, Neverland (Vocal)

Sometimes I feel so old I wanna die
Feel like I'm sick at heart
Sometimes I just wanna break down and cry
Feel like I'm falling apart
Angel come and rescue me
Angel come and take my hand
Angel come and rescue me
Come and take my hand, come with me to Neverland
(Live version: rescue me from Neverland)

Sometimes I feel like a candle burning down
Feel like my flame is getting dim
Sometimes I feel like a ship that's run aground
Feel like I'm twisted by the wind
Angel come and rescue me
Angel come and take my hand
Angel come and rescue me
Come and take my hand, come with me to Neverland

So weary and so tired I close my eyes but sleep just won't come
So messed up and wired, I feel so old and I
Wanna die, feel so cold and I'm sick of trying
Feel so cold, feel so numb
Angel come and rescue me
Angel come and take my hand
Angel come and rescue me
Come and take my hand, come with me to Neverland
Angel come and rescue me
Angel come and take my hand
Angel come and rescue me
Come and take my hand, come with me to Neverland
