

The Mission, Paradise (Will Shine Like The Moon)

Hey sister moonshine ride the snake with me
Ride it long ride it hard
Ride it all the way with me
Hey sister moon dance charm the snake for me
Charm it long charm it hard
Charm the skin from its back for me
And paradise will come tonight
In the comfort of your arms and the ritual and
The rite
And paradise shines so bright
Lead me a dance of veil in the silver of the
Moonlight and paradise
Paradise will shine like the moon tonight
Hey sister moonchild the wolf is howling at the moon
He howls long he howls hard
Howling for you sister moon
Hey sister moonshine hold me till the break of dawn
Hold me long hold me hard
Hold me till the shadows fade away
Hey sister moonlight kiss me with your honey lips
Kiss me long kiss me hard
Kiss me till my honey drips
Hey sister midnight love is over with the rising sun
Love me long love me hard
This could be forever if you love me right
