

The Mission, (Slave To) Lust

First I'm gonna f**k you and then we'll make love
Baby it's been too damn long
I'll conquer every orifice, scream at the heavens above
Where have all the angels gone

I want to take you in my mouth
Take you deep inside
Take you for a trip
Take you for a ride

I'll feed your every hunger
Do whatever you want me to do
It's not so strange how the medicine affects you

And I'll be a slave
I'll be a servant to lust
Slave to lust
I'll be a slave to lust
Slave to lust

I just wanna leave this world for a little while
I wanna feel like the God you want me to be
I want high ascension, fast love and exultation
I know you understand this need in me

I'm sick of masturbation tired of playing with myself
Don't wanna go to hell. Don't wanna go blind.
As sure as the river flows and ebbs out to the sea
I'll give you everything I have if you'll blow my mind

And I'll be a slave
I'll be a servant to lust
Slave to lust
I'll be a slave to lust
Slave to lust

Being off your face can be a beautiful place
When you're there with the one you love
And I always knew and know you did too
That too much is never enough

I'm a slave to lust
Slave to lust
