

The Moffatts, We're Off To The Rodeo

We're off to the rodeo
To watch the cowboy show
The thing that makes them different
Than what we've grown to know
'cause they'll take their knocks
And get back up and try all over again
The cowboy's worst enemy
Is also his best friend

There's monster trucks and broncin' bucks
And mean old brahma bulls
Calf ropin', hog tying
And chuck wagon pulls
He's got pretty girls by his side
Everywhere he goes
Cowboy stuff ain't all that bad
Only during the show

We're off to the rodeo
To watch the cowboy show
The thing that makes them different
Than what we've grown to know

'cause they'll take their knocks
And get back up and try all over again
The cowboy's worst enemy
Is also his best friend

Well, the days are long on the summer tour
They never seem to end
Cowboy's always waitin'
For his hurts to mend
There is special days every now and then
He rides the pain away
With twists and bends he whups his friends
And takes home the pay

We're off to the rodeo
To watch the cowboy show
The thing that makes them different
Than what we've grown to know
'cause they'll take their knocks
And get back up and try all over again
The cowboy's worst enemy
Is also his best friend
