

The Monkees, Love To Love

Love's a thing that needs one to thrive on
Then it grows
At least that's what I've been told
You can't love someone
If you find that all you get in return
A heart that's cold

CHORUS

They say you need love to love
You gotta have love to love
They all say it works that way.
But if it's true,
Why do I love you?
Why do I love you?

Seems like you keep trying to break me
You do things designed just to make me cry
And I've heard if warm lips don't touch you
Love won't grow no matter how much you try

CHORUS X2

Why do I love you...?
