

The Monkees, Secret Heart

No other love stood the test of time
Can you imagine how I'd feel if you were mine?
Once I know it's not make-believe
It's plain to see that you've got something over me

You hold the key to my secret heart
Just turn the lock
And we could be lovers after dark
(repeat)

With other girls it's just been physical
So many times before I never cared at all
With you I realize what love could be
And I could feel that you've got something over me

You hold the key to my secret heart
Just turn the lock
And we could be lovers after dark
(repeat)

(musical bridge)

You hold the key to my secret heart
Just turn the lock
And we could be lovers after dark
(repeat to fade)
