## The Monkees, Secret Heart

No other love stood the test of time Can you imagine how I'd feel if you were mine? Once I know it's not make-believe It's plain to see that you've got something over me

You hold the key to my secret heart Just turn the lock And we could be lovers after dark (repeat)

With other girls it's just been physical So many times before I never cared at all With you I realize what love could be And I could feel that you've got something over me

You hold the key to my secret heart Just turn the lock And we could be lovers after dark (repeat)

(musical bridge)

You hold the key to my secret heart Just turn the lock And we could be lovers after dark (repeat to fade)
