The Monkees, The Day We Fall In Love

There'll be birds singing everywhere And the wind will be blowin' through your hair I'll look in your eyes And wait for the prize Your lips kissing mine with a love that is real And you'll look so young and fair

On the day we fall in love You and me On the day we fall in love You'll see

There'll be rainbows reaching across the sky
And we'll both be so happy, we'll cry
We'll walk hand in hand
In snow or in sand
Whether roses are blooming or snowmen stand by
Time will stop for you and I

On the day we fall in love It will be On the day we fall in love You'll see

And if the lines that I say fall apart It's because I won't know where to start But you'll understand when I say them to you 'Cause they'll come straight from my heart

On the day we fall in love You and me On the day we fall in love You'll see You'll see You'll see
