

The Moody Blues, So Deep Within You

Talk to me baby, I want to sleep at night
My heart is heavy, it's weighed down by the night.
And now I'm lonely, I want to see the light
So deep within you.

Cool wind is blowing through your crazy hair.
Warm colours flowing, this feeling we have shared.
And now I'm lonely, I want to feel the love
So deep within you.

Your love's a never-ending dream
A castle by a stream of sweet understanding
I know you're thinking of me too,
The messages from you are my inspiration.

Love's incense lingers, it never fades away.
Like you I'm waiting for our special day.
And now I'm lonely I want to feel the love
So deep within you

My love is burning, like a forest fire
My heart is yearning, I feel a warm desire.
And now I'm lonely, I want to touch the fire
So deep within you.
