

The Moody Blues, Swallow

Time goes by
Seems like the blink of an eye
It's so crazy
What can we do

It's so strange
Life in the really slow lane
Take it easy
That's what we'll do
Just me and you

In the wide outside
See the swallow as he glides
Like a spiral up to freedom

We're all right
Maybe get lucky tonight
Only lovers feel like we do

We take our time
Leave all our worries behind
No more mind games
Simple and true
That's what we'll do

In the wide outside
See the swallow as he glides
Like a spiral up to freedom

Time goes by
Seems like the blink of an eye
It's so crazy
What can we do

It's so strange
Life in the really slow lane
Take it easy
That's what we'll do
Just me and you
That's what we'll do
Just me and you
That's what we'll do
