

# The Morning Of, Goodbye Gravity, Welcome Cha

Some are dreamers  
And some are realists  
But, we all welcome change  
This is goodbye, gravity  
You no longer keep me grounded  
This is world as we know it  
This is world as we know it  
This is world as we know it  
This is world as we know it  
Some are lovers  
And some are fighters  
But, we all pump the same red blood into our veins  
The new is in, and we're feeling better already  
This is world as we know it  
(oh, oh oh oh...)  
(whispers...)
