

# The Motorhomes, Into The Night

Into the night we're alright  
Into the pale moonlight  
Nothing could go wrong  
When you're alone carry on  
Pull out the nails from your bones  
Keep on keeping on  
You've got nothing to fear  
Promise you will be there  
Nothing will go wrong  
Don't chase the beat of your heart  
Don't let yourself fall apart  
You've got nothing to fear  
Promise you will be there  
Nothing will go wrong  
This pain put there by your loved ones  
Goes deep into your bones  
That carry your body  
This pain put there by your loved ones  
Goes deep into your bones  
That carry your body  
Into the night it's alright  
Into the pale morninglight  
Nothing has gone wrong  
And nothing will go wrong
