

# The Motorhomes, Slow Down

Look at yourself, down at yourself  
See through your head, nobody's there  
Don't be afraid, just look away  
Loosen your strains, and come out again  
You don't have to be strong anymore, you'll heal in time  
Then you don't need to be afraid anymore, just you slow down  
I'm not the same, the sky's going red  
Where are we now, over and out  
You don't have to be strong anymore, you'll heal in time  
Then you don't need to be afraid anymore, just you slow down  
coz then you  
Why don't you  
Come on slow down
