

The Move, Looking On

Standing up in someones place looking down on thee
Now I may behold your face as it's supposed to be

Get you in but tried enough to keep you be
Give you in to take a...that you will need

Chorus

Oh may it not be so
See me looking down
I'm just looking on

Standing with their heads...
Watching down on me
Theres a...on my chest
Where the soul should be

Give you in but see who as they...by now
Get you in that meet you as they all cry now

Chorus

Repeat first two verses
