

# The Move, Message From The Country

Here the roar a coming  
Here the roar a coming  
Here the roar a coming now

Got news for your mother  
Got news for your mother  
Got news for your mother tonight

Sister I have touched the evergreen  
And I promise that it's life should go unseen  
Now it (saves/says? ) the birds upon the fire  
And the message from the country rises higher

Hear the birdie calling  
Hear the birdie calling  
Hear the birdie calling for life

Message from the country  
Message from the country  
Message from the country rising high

Sister I have touched the evergreen  
And I promise that it's life should go unseen  
Now it (saves/says? ) the birds upon the fire  
And the message from the country rises higher
