

The Move, Omnibus

There she is I'm sure I seen her
Pushing in the queue to get to the front
Join the ladies in my dream
I know the perfect part you play
Ring my bell and sail away

Chorus

Come and take a ride on my omnibus
We could take you right to the terminus
Don't forget your ticket if you want to ride
Catching the ride inside

Just a dud their hansom falter
Harem on a bus flies over the town
Hopes and dreams lock up your daughters
Just too late to save the day
Ring my bell and turn away

Chorus

Sweet silver meadows
Protect us from the rain
Reins never break
Take us to the stars again
Hear the waves flow everywhere
See my sleighs through windy hair

Save the girls upstairs for later
Now you wonder if I can manage them all
Wrap them up in Christmas paper
Tell them they don't have to pay
Ring my bell and turn away

Chorus

Omnibus ride
Omnibus ride
