

# The Movement, One Way Culture

I wanna help my people  
They are down and need my song

I wanna join the rebels  
And free this country once for all

The rich enjoy the laws they make  
They turn the people against their own

Shouldn't we conquer our lives back?  
And fight for what the young kids have

One-way culture  
One-way street  
Some will suffer  
Some will eat

"My son, you frightened me  
I don't know you anymore"

"But I'm a man now can't you see  
And life no longer wait for me"

We will buy liberty with blood  
The one-way culture must be stopped  
I am young and I belong to strength and  
Hope for life itself

One-way culture  
One-way street  
Some will suffer  
Some will eat
