

The Movement, Wasted Youth

All the crap all the lies that they telling you
And all the things that you don't really wanna do
You're pushed in to it man you wanna quit

Loneliness' don't really mean a thing
We leaned to live with it we got it under our skin
If that's the way then you never win

And all my wasted youth
Emotionally crippled under the laws of hypocrite's
They proved it all by giving us nothing

That doesn't make it right
That doesn't make it fucking right

But then again we got a government
I'm not ashamed to say its not another friend
That is away of oppression you

All the crap all the lies that they telling you
And all the things that you don't really wanna do
You're pushed in to it man you wanna quit

And all my wasted youth
Emotionally crippled under the laws of hypocrite's
They proved it all by giving us nothing

That doesn't make it right
That doesn't make it fucking right
Lack of morality police brutality
Aggression pointed at our youth
