

The Muffs, From Your Girl

And I do believe
She won't bitch and walk away
When you say you really want her
She'll be there

Anything you want to do
And she'll do it like a fool
So you'll come and take her by the hand
Away

And if you want to go away from her
And there's nothing to say
Please don't walk away
Please don't walk away
Please don't walk away
From your girl

And I know it's true
She won't ever go away
If you say you really want her
She'll be there

Anything you want to do ...

(Repeat Chorus)

Anything is better to me
So why don't you shut him up
Can't you see I don't believe a word he said
No!

And if you want to go
Away from her
There's something I'll really want to say
Please don't walk away (please don't walk away)
Please don't walk away (please don't walk away)
Please don't walk away
From your girl (ooh, ooh)
From your girl (ooh, ooh)
From your girl
