The Muffs, Funny Face

Sitting back and doing nothing I could hate you I don't think I will

If you ever see me anywhere And you know me Please walk away

Funny face Why do you look after me Funny face Why do you care

Doing everything I wanna do Maybe someday You will be there

I thought we would always get along I like everyone They all hate me

Funny face What's wrong with you anyway Funny face Why do I care

You want everything from me But you won't get it

I did everything I could But now I'll just forget it

Funny face What's wrong with you anyway Funny face Why do I care
