

The Muffs, I Need A Face

I need a face, I need a face
I need a face, 'cause the other is wrecked
Another place, another place
Another place in no time will be dead

You try to bowl me over
But you won't just let me be
When you hang on, hang on
Hang on me
All the time

I know a place, I know a place
I know a place, and the owner is dead
Another face, another face
Another face in no time will be wrecked

You want to put me under
And you won't just try and see
That you hang on, hang on
Hang on me
All the time

Another world ago
I could live forever and never show
But that was long ago
Say goodbye and adios

(Repeat First Verse & Chorus)
