

# The Muffs, The Best Time Around

I like you  
But everytime that I find you  
You're lying away I want to  
Punish you for so long

But you won't  
Forget about anybody  
As long as they give you money  
You'll take it before it's gone

You're hiding away  
As the talk of the town  
But when you're here today  
You're the best time around

You're out there  
And crawling away like I care  
You're never gonna learn it I swear  
We're not all like you here

You want it  
And everything that you can't get  
And all your nasty little secrets  
A downfall if you please

(Repeat Chorus)

And I will wish upon a star  
To fall upon you're head  
If you should die before I wake  
I pray the lord your soul will bake

(Repeat Chorus x2)

You'll be the best time around  
You'll be the best time around  
You'll be the best time around
