

The Naked Brothers Band, Body I Occupy

And in this body that I occupy
I've asked you questions that can make you cry
Until you come back and apologize
It's very sinister, this land of mine
In this body I occupy
In this body I occupy
In this body I occupy
In this body I occupy
The tension's on and I'm trying to say goodbye
And what you told me I will amplify
It doesn't matter that you obviously lied
You only took me to diversify
In this body I occupy
In this body I occupy
In this body I occupy
In this body I occupy
Time will never stop
Time will never stop
And you'll be turning back in time
In this body, this body, this body, this body
In this body I occupy
In this body I occupy
In this body I occupy
In this body I occupy
[repeat]
