

# The Naked Brothers Band, Face In The Hall

My love, we don't got each other  
So I'd run for cover, run for cover  
I feel better knowin' it's all over  
And I'm free to be who I wanna be  
You make somethin' just turn into nothin'  
That's what you do, what you always do  
Just blandin' in, I know it's a sin  
But I'm forgettin' you, forgetting you  
You used to mean so much  
But everything has changed  
You had your chance  
Now watch it fade away  
Just a face in the hall  
You used to mean it all to me  
Just a face in the hall  
Now it's all gone you see  
Time's a pain, now soon to be over  
And the girl I knew, well I don't even know her  
And what we had is thrown away  
And all my demons were kept to play  
You used to mean so much  
But everything has changed  
You had your chance  
Now watch it fade away  
Just a face in the hall  
You used to mean it all to me  
Just a face in the hall  
Now it's all gone you see  
Just a face in the hall  
The place dead and an awkward calm  
I wasn't able to say this to you  
That's why I wrote this song  
After all that we've been through  
It's better that you're gone  
gone gone gone gone gone gone  
You used to mean so much  
But everything has changed  
You had your chance  
Now watch it fade away  
Just a face in the  
Just a face in the hall  
You used to mean it all to me  
Just a face in the hall  
Now it's all gone you see  
Just a face in the hall  
You used to mean it all to me  
Just a face in the hall  
The place dead and an awkward calm  
Just a face in the  
Just a face in the  
Just a face in the hall
