

# The Network, Supermodel Robots

Not quite a fembot  
But almost an alien  
She's in the smell of the month club  
I feel it in my lungs  
Lesbian junkie funky  
Slam dunk a cosmonaut  
With laser guns and having fun  
Biological parking lot  
All systems down  
So titty-twist a mad scientist  
Oh is this the toxic ride  
Wrap me up in a plastic bag  
And hang me out to dry  
Artificial respiration  
I need my medication  
Load me up and light a match  
All systems down and out  
It's down and out
