

The New Cities, Dead End Countdown

Exiled and pushed away,
Lost in time,
Always I'll be
This bitter person,
Who's stuck right here,
Disillusioned
Don't stand by,
If you don't like what you see,
So unsatisfied,
No I won't take what you say to me
Ref.
Give me some time,
Give me some reason
Make up your mind and cool down the fever,
Drama must die,
So give me some way to salvage this life,
Finally it's over
You ought to stay away,
Til you see,
What runs through me,
Unless you get this game,
The only one I wanna play
My promise is cold,
You never been told,
There's nothing to hide,
I never did lie
There's no way to win,
When love is in vain,
I won't take what you say to me
Ref.
Give me some time.....
Dead End, Countdown x4
I know we're stuck inside a Dead End, Countdown,
With no communications,
Straight down,
We're drowning in our desperation,
We're lost beneath the surface
Ref.
Give me some time.....
Give me some time,
Give me some reason, x2
Now we're stuck inside
Dead End, Countdown x4
